

Architecting a Quality Learning Experience

Feedback From our Global Customers

Hewlett Packard Enterprise

DevOps Foundation (DOFD) e-Learning

- Fully Accredited
- 6 Months Access
- 14+ hrs of Content

Aim: Improve Strategy and Operational Efficiency

The Problem

Committing code to production via a waterfall methodology led to:

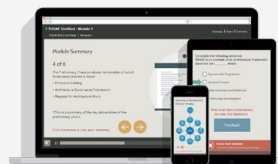

- Inability to react to changing markets
- Production code containing errors

The Solution

We needed to implement DevOps. To achieve the shift to DevOps we purchased Good e-Learning's DevOps Courses as they provided the highest quality learning experience.

The Outcome

We have faster and more frequent releases of error free code to production.

TOGAF 9.2 Certified e-Learning

- Fully Accredited
- 12 Months Access
- 25+ hrs of Content

Aim: Developing In-House Professional Capabilities

The Problem

My organization wanted to have an in-house Enterprise Architecture function - to reduce our operational expenditure costs.

The Solution

We needed our architects to become certified within TOGAF 9.2 and ArchiMate 3.1 – hence we acquired Good e-Learning's TOGAF 9.2 and ArchiMate 3.1 courses.

The Outcome

The in-house enterprise architecture function launched successfully reducing operational expenditure costs.

ArchiMate 3 Certified e-Learning

- Fully Accredited
- 12 Months Access
- 20+ hrs of Content

Aim: Managing Cross Enterprise Training Initiatives

The Problem

The organization undertook a merger. Mergers often are accompanied with a resistance to collaboration.

The Solution

We formulated a training initiative for our architects present within the new EA function that leveraged the following courses TOGAF, ArchiMate & IT4IT.

The Outcome

Completion of the courses by our architects ensured that all architects were speaking the same Architectural Language - ensuring we remained competitive.

L'ORÉAL

AgileBA Foundation e-Learning

- Fully Accredited
- 6 Months Access
- 12+ hrs of Content

Aim: Improving Employee Wellbeing Through Learning

The Problem

Workplace Well-Being is important as increased employee wellbeing is associated with a more productive workforce.

The Solution

Good e-Learning's AgileBA course had a positive impact on my team's morale and well-being, my team felt their career aspirations were valued and invested in.

The Outcome

A significant increase in output, its true what they say happy workers are more productive!

Fully Managed LMS

- Management Reports
- On-boarding & Support
- White-Labeling
- Gamification
- Custom Notifications
- Migration Services
- API Integration

Aim: Creating Excellence in the Learning Experience and Reducing Costs

The Problem

We have been having to manage our obsolete LMS – inhouse which has increased our costs significantly.

The Solution

Good e-Learning Provide a Fully Managed LMS Service.

The Outcome

The fully managed service lowered our costs and enabled me more time to focus on value adding activities rather than administrating an LMS.
